MODINE[®]

INDOOR AND OUTDOOR WARMTH AND COMFORT

YEAR-ROUND COMFORT TO WORK, PLAY AND RELAX

Make the most of every space in your home with residential heaters that are ideal for garages, work spaces, outdoor living areas and other spaces where you want to have better control over the temperature.

Modine® is here for you. Our products are backed by one of the largest support networks in North America.

HOT DAWG® GAS-FIRED UNIT HEATER (MODEL HD)

Extremely quiet operation lets you experience a warm space without the distraction of ambient noise.

- Runs on natural or propane gas
- Low-profile, lightweight design easily installs 1" from ceiling
- Metal casing construction
- Permanently lubricated motor for maintenance-free dependability
- Reliable and consistent starting with direct spark ignition, the igniter lights the burners directly
- Factory installed finger proof fan guards
- 10-year heat exchanger warranty

Separated combustion (MODEL HDS) offer:

- Draws fresh air from outside, ensuring dust, dirt or fumes do not affect durability or performance. Providing greater durability and reduced maintenance
- Factory assembled, certified separated combustion; No add-ons needed for an easier and quicker installation

HOT DAWG® H₂O LOW PROFILE HOT WATER UNIT HEATER (MODEL HHD)

Raise your comfort level with a fully enclosed, low-profile hot water unit heater.

- Low-profile design with flexible mounting options (parallel, perpendicular or recessed between joists) allows for horizontal or vertical air delivery
- No external moving parts - twin centrifugal blowers keep all moving parts inside the cabinet
- Constructed of heavy-gauge steel for long lasting durability
- Includes two mounting brackets with vibration isolators to reduce noise and vibration
- Internal coil can handle water pressures up to 150 PSI and temperatures up to 200°F

Hot Dawg Applications*

Model	Typical Application
HD/HDS 30	1 to 1-1/2 Car Garage
HD/HDS 45	2 to 2-1/2 Car Garage
HD/HDS 60	3 to 3-1/2 Car Garage
HD/HDS 75, 100, 125	Large Garage

Hot Dawg H₂O Applications*

Model	Typical Application
HHD 45 (high speed)	2 to 3 Car Garage
HHD 45 (low speed)	2 to 3 Car Garage

* Consult a qualified installer for the the individual space requirements

LODRONIC™ HORIZONTAL UNIT HEATER (MODEL HCH)

Designed and engineered for high-efficiency boilers*, geothermal or air-to-water heat pump systems to maximize efficiency. With the Lodronic, the typical oversized hydronic unit heater can be downsized to avoid overworking your system.

- 50% less electric used
- High-efficiency 4-row coil with low water pressure drop
- Smaller fan and motor for a lower system amp draw
- Designed for lower entering hot water temperatures

*includes electric and condensing boilers

HIGH-INTENSITY INFRARED PATIO HEATER (MODEL OHP)

Extend the outdoor living season with the comfortable warmth of an infrared patio heater.

- Instantly begins heating as soon as it's turned on
- Infrared directs the energy towards objects, not air, providing more warmth
- No fan is needed so the heater runs quietly
- Wind and rain protective design
- Internally mounted controls with easy access to gas valve and controls
- Brushed stainless steel housing is durable and provides a stylish finish

DUCTLESS™ MINI-SPLIT CEILING CASSETTES (MODEL SCW/SSD/SSH)

Never be too hot or too cold. Ceiling cassettes allow you to create independently controlled temperature zones for different rooms of your home.

- Designed for extreme quiet operation
- Remote control operation
- Flexibility of heating, cooling or both

Lodronic Applications*

Model	Typical Application
HCH 22	1 to 1-1/2 Car Garage
HCH 39	2 to 3 Car Garage
HCH67	3+ Car Garage

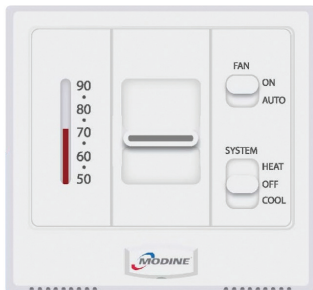

Cassette Applications*

Model	Typical Application
SCW 8 & 12	1 to 1-1/2 Car Garage
SCW/SSD/SSH 18 & 24	1 to 2 Car Garage
SCW/SSD/SSH 33 & 36	2 to 3 Car Garage

* Consult a qualified installer for the the individual space requirements

THERMOSTATS

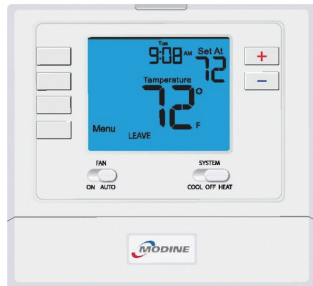

Choose the best thermostat option for you: **Basic, Programmable or WIFI**

BASIC

Simple to use, three thermostats in one.

- Heat - Off - Cool
- Heat only with fan
- Heat only without fan

PROGRAMMABLE

Customize your heating schedule so your home is always the perfect temperature.

- 4 sq. in. display for easy reading
- Program your entire week or day by day
- Battery or hardwire installation

UNIVERSAL WITH WIFI*

Control your garage temperature at the source or using your phone.

- Use your WIFI to set and control temperatures
- Large screen lets you easily see and set schedules
- Hardwire installation only

*Does not apply to the infrared patio heater
