

HIGH-OUTPUT MEDIUM WAVE ELECTRIC HEATER

Effectively heat almost any space with a variety of lamp and chassis options

The MEL Series is a high wattage, commercial-grade electric heater offering. A great choice for spot heating and outdoor patios, the MEL series can accommodate a wide variety of heating needs. Heaters are equipped with a specially designed reflector for optimal radiant heat output and optional wall mounting brackets allow adjustment of the heating direction.

High-output medium wave elements produce a mild white light while operating. Light is visible on walls and at the ground level, but is around 30% less bright than a typical short wave element. However, high-output medium wave elements have an output equal to their short wave counterparts, making them the preferred choice for spot heating, outdoor patios, and other applications where more heat is required but the short wave elements' intense brightness is not.

Benefits Of Heating With Electric Infrared

- Superior Comfort
- Reduced Energy Consumption
- Durability
- Even Heat Distribution
- Outdoor Tested & Approved
- Long Lamp Life Expectancy

Product Features

- High-end quality and compact, aesthetic design
- Black powder-coated housing
- Single, double, or triple lamp models
- Gold-colored anodized aluminum reflectors reduce light glare
- High temperature nylon louvered end caps

Product Specifications

Wattage Range	750 to 11,400 Watts
Mounting Options	0° to 45° Adjustable Brackets Included
Lamp Elements	High-Output Medium Wave
Housing	Black Powder-coated Aluminized Steel for Added Durability and Corrosion Resistance
Certifications & Approval	UL Listed for Indoor & Outdoor Commercial, Outdoor Residential
Limited Warranty	1 year (All Components)

**Available in
Single, Double
and Triple Elements**

High-Output Medium Wave Features

	MEL Elements
Wavelength Type	High-Output Medium Wave
Available Chassis Lengths	24", 33", or 46"
Number of Elements	1, 2, or 3
Available Voltages	120, 208, 240, 277, 480, 575
Wattage Range	1,360 to 9,600
Element Type	Woven Tungsten
Element Color	Clear
Ideal Applications	Spot heating, outdoor patios, and other areas where more heat is required but the brightness of the short wave is not.
Brightness Level	Medium
Color	Mild White
Heat Speed	Short
Commercial / Industrial	Indoor and Outdoor
Residential	Outdoor Only
Recessed Mount Available	Single Element, Double Element
